Sound Absorbing							

Named after its bold cross stitch pattern along the seam of this pendant, the Stitched-up is an acoustic pendant that can be tailored to suit a range of applications. Providing illumination of interior environments while reducing sound reverberation, it is useful in environments where noise is an issue such as hospitality, offices, residential, education and other commercial spaces.

Made from 5mm felt and a steel structure, the pendant comes in 4 sizes (450mm, 500mm, 600mm and 900mm diameters) and a range of colours, wattages and colour temperatures, allowing it to be fully customised to suit your project. The Stitched-up comes with a 5 year warranty.
