Chopstix linear profile series offers new lighting possibilities for a multitude of project applications due to its small size. Being recessed mounted, makes a perfect solution for handrails, joinery integration, task lighting and architectural features.

Constructed from high grade 6063T extruded aluminium with natural anodised surface treatment as standard, it provides optimal heat transfer and continuous illumination. Optional surface finishes are available to complement interior and/or exterior colour palettes. High quality opal PMMA diffusers enable harmonious distribution minimising the visibility of dots when used in conjunction with the Deltaflex-mini & Zeroflex-mini LED flex series.
