Morph-38 LED linear lighting system is a configurable lighting system that uses customisable linear profiles, inserts and accessories to create unique application specific luminaires. The system gives engineers, designers and contractors the ability to create different lighting scenarios and environments in a single luminaire design. It is available as standard in a diffused zero dot LED PMMA diffuser for low visual glare.

The Morph-38 can be wall mounted to suit almost any application. The Morph-38 integrates Vossloh Schwabe LEDs and controls plus optional DALI-2 or Bluetooth dimming. Systems are backed by a 5 year warranty.
